Industry Defining Power Systems

NEW

STARBOARD NOVA.

**POWER YOUR ADVENTURES,
ANYWHERE, ANYTIME
12V OR 48V**

Up to:

- *100amp charge from alternator
- *2600w Solar charging,
- *5000w Inverter AC output

Always have power on demand
ready for fulltime adventure.

VICTRON POWERED

Cerbo centered power hub
interconnects all devices allowing
intelligent power communication
between devices = 100% accurate
state of charge every time, Remote
connection support and live over
the air updates

DESIGNED AND BUILT BY AUTARKY USA

Hand assembled by ABYC installers
in Fallon Nevada at Autarky
Expedition Vehicles headquarters

POWER THAT NEVER FADES

The Nova is a revolutionary, compact power solution purpose-built for rugged mobile applications. At its core is our proprietary Starboard backboard — a vibration-resistant mounting platform developed in-house by Autarky specifically for the demands of the overland and expedition industries.

Built by ABYC-certified experts with years of global travel experience, the Nova system redefines what's possible in mobile power. By combining advanced electrical engineering with world-renowned components from Victron Energy, we've created a plug-and-play solution that brings professional-grade performance to any vehicle platform.

The Nova's clean design and efficient layout leverage our in-house wiring techniques and cable management system to deliver unmatched reliability and serviceability. Despite its power and functionality, the Nova occupies an impressively small 12" x 22" footprint — one of the smallest in the industry. This ultra-compact form factor maximizes usable space in your rig, giving you more room for storage, systems, or simply more adventure.

Experience the future of mobile power —
engineered for reliability, designed for
independence, and built to go anywhere.

DEVICE

12V

48V

DC to DC

Orion 30 or 50 AMP pair 2 for up to 100amp

Orion 48v 8amp or
Scotty Ai 1.5k or 3k
Scotty3k=250Amps at 12v

Solar

Smart Solar MPPT 100/30 or 100/50 up to 700w at 12v

Smart Solar MPPT 150/35 up to 2600w at 48v

Inverter

Multiplus Compact 500-1200W

Multiplus II 2000-5000W

AC distribution

ASI 15amp dual GFCI Outlet with breaker

Blue Sea 1503 360 30amp Main + 6 position with meter

DC distribution

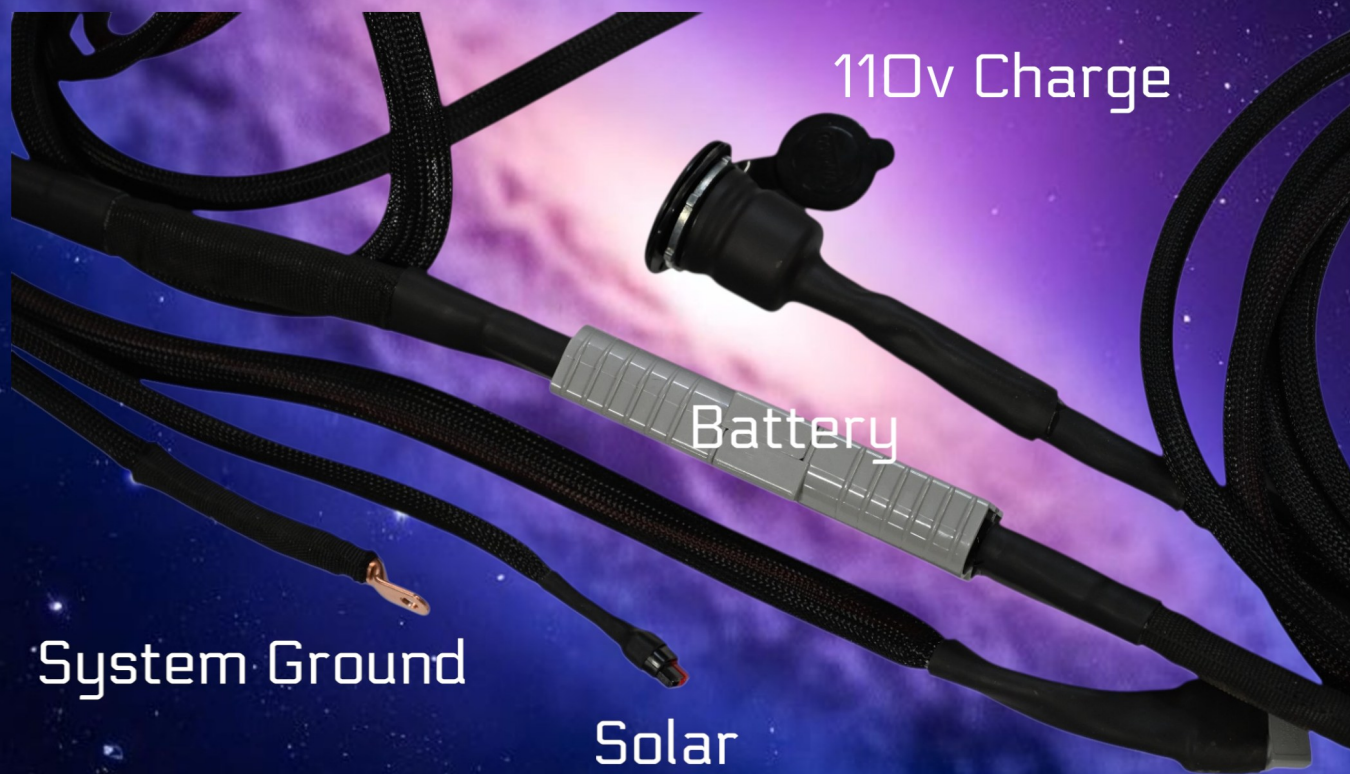

Blue Sea 12 Position Blade Fuse

Blue Sea 1223 12 position Branch Circuit

Plug and Play

ZERO TOOL INSTALL
